Artículo: PROGRAMA MUJERES EN CIENCIA – ACFIMAN

Special issue of the journal Tribune of the Researcher for the centenary of ACFIMAN

Número especial de la revista Tribuna del Investigador por el centenario de ACFIMAN

Activities: *new*

Survey 8 questions to Venezuelan scientists (40 researchers)

Objective: obtain their opinions on the development of science in our country.

2018-2019.

Three of these questions:

How has it been, in your opinion, the development of science in Venezuela?

Cómo ha sido, en su opinión, el desarrollo de la ciencia en Venezuela?

What is your assessment of the performance of women in scientific activities in our country?

Cuál es su apreciación sobre el desempeño de las mujeres en las actividades científicas en nuestro país?

What is your opinion on the performance of Venezuelan women in managerial positions related to the scientific activity of our country?

Cuál es su opinión sobre el desempeño de la mujer venezolana en cargos gerenciales relacionados a la actividad científica de nuestro país?

Activities: *new*

Videos of Venezuelan scientists: includes aspects related to their scientific activities and some personal aspects such as the trajectory and inspiring messages related to their work. This project is currently carried out.

Activities: *new*

Meeting Women for Science Venezuela.

The objective of this meeting is to inform about how in the past and currently Venezuelan scientists have played important roles in the development of science in our country.

This would include historical and current aspects on the role of Venezuelan scientists in the development of science in and outside of Venezuela.
